

PERMIT TECHNICIAN EDUCATION COMMITTEE REPORT

The Education Committee met on October 16, 2008

Present: Robyn Harp City of Dublin, Margie Badurina and Irene Metheney Grove City, Sandy Whittington City of Pickerington, Mary Rinella City of Dover.

We discussed the upcoming seminar for Legal Aspect of Code Administration and Ohio Ethic that will be held at the Board of Building Standards on November 20, 2008. We will need to have help with the registration for the classes, collection of the money, picking up the food, and other work that may be required.

We also talked about starting another Permit Technician Study Group sometime next year. We will have to designate a time and place for the study group, and see if we can find someone who would be willing to help in teaching this class.

Next meeting will be held the first quarter of next year.
